

Course Title	Food Service Art and Labs				
Course Code	ICUL-124				
Course Type	Required				
Level	1 st Cycle				
Year / Semester	First/Spring				
Teacher's Name	Nicholas Orphanides				
ECTS	3	Lectures / week	9	Laboratories / week	4
Course Purpose and Objectives	<p>The purpose of the course is to present the functions of the restaurant. Through an introductory course on the theory of food preparation, it combines perfectly with demonstrating the practical aspects of food handling with the practice of basic skills required in preparing and serving food.</p> <p>There will also be a general historical overview of the ways of serving and the history of the restaurants in order to get the best possible knowledge of the restaurant art historically and retrospectively.</p> <p>The primary objective of the course is to make the students capable of working in the field of food and beverage service. Additionally to understand the importance of proper food and drink serving, using basic technical skills, both theoretically and practically.</p>				
Learning Outcomes	<p>After completion of the course students will be able to:</p> <ul style="list-style-type: none"> • Identify the different types of restaurants. • Understand the importance of a proper professional appearance of a professional and skilled waiter. • Recognize the importance of good service and of the role that restaurants play in food industry. • Develop a sense of hospitality and customer care. • Recognize the different areas and equipment of the restaurant. • Understand the main stages of the serving procedure. • Develop basic skills in serving dishes and drinks. • Prepare the restaurant, utensils, equipment and the bar for service. • Understand and have a sense of the acceptable time frames.
